

Subject Matter Expert Ken Wilmoth

Expertise Technical Architecture Assessments

Mr. Wilmoth, a director with PCG Technology Consulting (PCG TC), has more than 25 years of technical Enterprise Systems development and implementation experience. This experience is in both the private and public sectors. Since joining the firm in 2010, with a focus on the technical aspects, he has led or participated in multiple public sector project oversight engagements for the state of California. Mr. Wilmoth's experience covers the entire spectrum of solution activities, including project procurement, design, development, implementation as well as ongoing maintenance and operations. This includes the creation and assessment of solution application and infrastructure architectures.

As much of Mr. Wilmoth's background is with the deployment of Enterprise solutions, he brings significant experience with all the technical aspects of large scale systems development and implementation. With the expansion of ERP systems into the public sector, Mr. Wilmoth has been focused on ERP solutions in and outside of the state of California.

Mr. Wilmoth is currently leading or participating in Independent Verification and Validation projects for Enterprise solutions for the California State Controller's Office, the California Public Utilities Commission, the California Department of Health Care Service as well as the joint Fiscal project for the Department of Finance and the State Controller's Office.

Experience Prior to joining PCG TC, Mr. Wilmoth served as the technical project manager for Parole Leads Modernization project for the California Department of Corrections. His background also includes leadership roles as Global Vice President of Information Technologies for a multi-national Semi-conductor company. Prior to this, Mr. Wilmoth worked both on the development and implementation for numerous ERP implementations. His experience includes the design, development, testing, and deployment of most functional areas of Enterprise Resource Planning solutions.
