Anti-Fraud Solutions

Solutions designed and built by eligibility and public integrity experts for eligibility and public integrity staff.

Why PCG?

PCG is currently supporting 2,000+ state agency projects promoting innovation in business processes, technology, and cost savings measures.

1 Proven Experience

35 states (and counting) are using one or more of PCG's fraud detection solutions.

2 Configurable API Gateway

Data sources are configurable to meet specific needs.

3 Pre-Enrollment Focus

Configurable analytic and business rules to support state specific policies to identify potential fraud prior to an eligibility decision being made.

4 Cutting Edge Data

PCG has access to a growing menu of the best that competing commercial data vendors have to offer through a single PCG interface.

5 Proven System

PCG's systems have been in continuous use by state agencies since 2016 and has generated millions of dollars in cost avoidance savings.

Public Consulting Group (PCG) is a leading public sector management consulting and operations improvement firm that partners with health, education, and human services agencies to improve lives.

Instant Eligibility Verification System (IEVS) & API Gateway

An off-the-shelf Cloud- and SaaS-based product that centralizes agency access to a configurable menu of third-party data sources. IEVS instantaneously uses third-party data, predictive analytics, and "known" ineligibility and fraud profiles to automatically identify potential ineligibility and fraud.

Data Broker Services

A "one-stop shop" providing access to all disparately located private and state data sources in a single location. Accessible via either API or the IEVS system.

Anti-Fraud Training

Customized training for eligibility staff on how to identify and address questionable information and potential fraud in the eligibility determination process.
