

Grants Management Solutions for Opioid Settlement Funds

The funds awarded through opioid settlements provide an unprecedented opportunity for states and localities to support community-driven approaches to addressing the opioid crisis. Many jurisdictions have identified community-based grant making as an approach to community-driven responses that meet the unique needs, readiness, and capacity of the populations they serve.

Grant management can be a significant undertaking for state and local government administrative teams, both in infrastructure, including resources and technology, as well as oversight.

Given the lift, and the public scrutiny on opioid settlement spending, Public Consulting Group (PCG) can directly support jurisdictions in tackling the operational challenges presented by this unique opportunity.

What We Do

You are the expert in your communities. Let PCG serve as your opioid settlement grant administrator so you can focus on best reaching communities.

Our grant administrator services include:

- ✔ **Grant program design and management**
Designing the grant program, requirements, standard operating procedures, grant application, and management of the pre-award and post-award activities.
- ✔ **Grant management system technical solution**
Administering an electronic grant management platform to intake, review, and score grant applications, and collect data for reporting and compliance monitoring.
- ✔ **Stakeholder communication and outreach**
Marketing the opioid settlement grant program to internal and external stakeholders through multiple channels.
- ✔ **Technical assistance and customer support**
Providing a customer support hotline, email inbox, training webinars, and office hours to support grant applicants through the selection process.
- ✔ **Grant award disbursement**
Serving as a fiscal intermediary to disburse funding to subgrantees and track grant financial information.
- ✔ **Program outcome reporting**
Designing performance metrics and collecting and analyzing data to provide outcome data to internal and external stakeholders.

PCG's grant administrator solutions for opioid settlement funds are tailored to the unique needs of your jurisdiction. **We work hand-in-hand with you to determine the right approach.**
